NEW INDIANA INDUSTRY

(Greenfield Cor. Indianapolis News)

Raising fishworms is a new industry in this city, and so far as known is not even carried on in a small way in any other locality in Indiana. The scarcity of bait at the Northern lakes where several fortunate Greenfield lads spend the summers with their parents led to the industry.

Ordinary angle worms are obtained, regardless of size or condition, and placed in boxes prepared with soft fertile soil. They are then developed by careful feeding. The food is milk and sweetened water. On this the worms thrive and become large and tempting food for the fish. The fishermen ship this carefully prepared bait to the lakes, and as a usual thing they are favored with the big catches.

PHYSICIANS

Of The County To Hold Picnic At Park Aug. 10

A meeting of the Knox County Medical Association was called at the Curtis hotel on Wednesday afternoon to arrange for a picnic. Malthoid Roofing

We want builders to see us about roofing. We want to demonstrate why it is to your advantage to roof your building with Malthoid Roofing—and we will do this to your complete satisfaction.

We will show you beyond any question that Malthoid is the very highest type of roofing perfection and made so well that it will last as long as the building it covers.

We will show you that Malthoid is a better roofing than shingles—

is more satisfactory than iron—

is cheaper than tin—

in fact, we can prove that there is no other roofing known to the building trades that is as good—

as durable—

as long lasting—

as water proof—

as fire resisting and as cheap as Malthoid Roofing.

It has got every other brand of ready roofing marking time while it is progressing—

there is more of it sold on the Pacific Coast than all other brands combined and it speaks well for the intelligence of builders that this is so.

The makers of Malthoid Roofing know their business for they have been at it for twenty-six years and they not only make this roofing to sell but they make it to last and to please the people who buy it.

They would rather have the good will of the builder than his money—and they get both by the way they make Malthoid Roofing.

If you have roof troubles of any kind or of any description—no matter what kind of a roof you have on your building, see us at once and we will help you out of your difficulty.
